

## MODERN GLAMOUR

A striking wallpaper in a metallic-style finish instantly gives this dining space a chic contemporary air. The addition of dramatic black tailored curtains edged with a dainty bobble fringe make a good foil for the black-and-white striped upholstery. Opting for a mix of seating around the glossy dining table has a more relaxed feel than the traditional use of chairs only. However, slick gold glassware and unusual black cutlery keep the table setting smart and alluring, while white crackers tied with ribbon to match the colour scheme add a final thoughtful flourish.
